Media Standards (H.264)

- :: Video = .MP4 / .FLV
- :: Audio = .AAC / .MP3

1. Create your media files
2. Set up your client
3. Provide ITSD with the files + client name
4. ITSD hosts your files
5. ITSD provides streaming URLs to you

For example:

<rtmp://broadcast.mt.gov/agency/mp4:mediafile.mp4>

.FLV

.MP4

.MP3

.MOV

FLASH
MP4

Stream prerecorded or live media for your agency websites, intranets or applications.
